**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 18 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

A. The subject matter of claim 18, i.e., apparatus that would require that "said hook is releasable from the latching device only under a condition that the fan has been detached from the mounting device" is not disclosed and appears to contradict the main concept of the Applicant's invention, i.e., that the fan and mounting device can be pivoted as one assembly when the latch is released.

Claims 1-19 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

A. The claims are replete with grammatical errors, proper antecedence and

Indefinite language, failing to conform with current U.S. practice. They appear to be a literal translation into English from a foreign document.

The following are examples of the above all of which must be corrected

In response to this action but are not intended to be a complete list:

1. The use of “of” within phrases like “plural of fins”, claim 1, lines 2 and 3 (grammar).
2. Claim 2, lines 1 and 2, “the fins lies” (grammar).
3. Claim 4, lines 1-2, “the engaging portion of the heat sink” (antecedence is unclear. It appears –engaging member—was intended.
4. Claim 8, line 1, “plural of blocks spaced” (indefinite). –plural spaced blocks” would be better phrased.
5. Claim 16, line 3, “respectively equipped” appears to be better phrased as –respectively are equipped--.
6. Claim 16, line 5, “defining opposite hook and pivot” is indefinite. --oppositely defining a hook and a pivot—is suggested.

### ***Allowable Subject Matter***

Claims 1-17 and 19 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

A- G are cited as teachings of latched heat sinks, mounting systems and fans of related subject matter and structure.
